

SIDDHESH MORE

Software Developer

📧 Full Stack .NET Developer | React | AWS | CI/CD | 4+ Years Experience
Mumbai, Maharashtra 400051

📞 +91 9892039037 | ✉️ siddheshmore42@gmail.com | 🔗 LinkedIn

Notice Period: 90 days (Negotiable)

SUMMARY

Software Engineer with 4 years of experience designing and modernizing enterprise-grade web applications using C#, .NET 6–8, ASP.NET Core, SQL Server, and AWS Cloud. Experienced in implementing multi-tier architecture solutions, RESTful APIs, and scalable distributed systems. Strong background in CI/CD concepts, containerized deployments, performance tuning, and production support (P1/P2 issue resolution). Familiar with Azure AD for authentication and identity management.

SKILLS

Technical Skills

- **Languages & Frameworks:** C#, .NET Framework 4.8, .NET 6/7/8, ASP.NET MVC, ASP.NET Core Web API
- **Architecture & Design:** Multi-tier Architecture, Microservices, SOLID Principles, Design Patterns (Command, Repository, Singleton), RESTful API Design, SOA
- **Database:** SQL Server, T-SQL, Stored Procedures, Indexing, Query Optimization, Entity Framework
- **Frontend:** React.js, HTML5, JavaScript
- **DevOps & Tools:** Git, Docker, AWS (EC2, EKS), Azure AD, IAM, JWT Authentication Visual Studio, TFS
- **Other:** Agile/Scrum, Production Support, Performance Tuning, High Availability Systems

Soft Skills

- Effective Communication | Problem-Solving | Team Collaboration
- Time Management | Code Review | Critical Thinking

Architecture & Technical Contributions

- Designed and implemented multi-tier architecture (Presentation, API, Business, Data layers) for enterprise financial applications.
- Contributed to architectural design discussions with technical leads and business.
- Applied SOLID principles and design patterns (Command, Repository, Dependency Injection, Singleton) to improve scalability and maintainability.
- Authored technical design documentation including API contracts, data flow diagrams, and deployment architecture.
- Provided production deployment support and performance optimization for high-availability systems.

PROFESSIONAL EXPERIENCE

Software Developer

Travelex India Pvt Ltd | Mumbai, Maharashtra
March 2024 - Present

- Designed and developed RESTful APIs using ASP.NET Core following SOA principles.
- Led modernization of legacy applications into .NET Core microservices.

- Implemented Command Design Pattern to decouple business operations and improve extensibility.
- Developed scalable background job scheduling system using cron-based configuration from database.
- Optimized SQL Server queries using indexing and execution plan analysis, improving response time by 30%.
- Handled P1/P2 production incidents, root cause analysis, and hotfix deployments.
- Contributed to CI/CD pipeline implementation using Azure DevOps and Docker.
- Worked with AWS EC2 and containerized deployments using Docker and EKS.

Junior Software Developer

Travelex India Pvt Ltd | Mumbai, Maharashtra August 2022 - March 2024

- Maintained and enhanced legacy PowerBuilder (RAD) applications used in financial operations.
- Resolved recurring P1 performance issues by optimizing rate-fetch logic and migrating from file-based to database-driven processing.
- Introduced live rate visualization, significantly improving usability for business users.
- Developed key features in the Finance Suite, enhancing B2B deal processing workflows.
- Implemented Multi-Till functionality and integrated RAFA rules for complex financial transactions.
- Delivered a Customer Type Change utility under tight timelines with zero production defects.

Management Trainee (Java Developer)

IDBI Intech Ltd | Navi Mumbai, Maharashtra October 2021 - September 2022

- Worked on BFSI AML systems, developing and customizing solutions as per regulatory requirements.
- Built a Sanction Screening API with full and partial name matching using Fuzzy Logic techniques.
- Developed multithreaded batch services for real-time customer risk rating updates.
- Delivered 14+ complex reports in one week for a legacy in-house application.
- Improved transaction performance for a major bank by introducing SQL sequences in high-volume areas.
- Provided direct client support and resolved critical production issues early in tenure.
- Took ownership of lower environment setup and stabilization where handover was incomplete.
- Collaborated with architects and business stakeholders to translate business requirements into scalable technical solutions aligned with enterprise digital transformation initiatives.

EDUCATION

Master of Computer Applications (MCA) - CGPA: 9.21

Late Bhausaheb Hiray College of Architecture and MCA, Mumbai (July 2022)
4th Position in Academics (2019-2022)

Bachelor of Science in Information Technology - GPA: 6.00

Chetana Institute of Management & Research, Bandra (May 2018)

AWARDS & RECOGNITION

Outstanding Contribution Award – Recognized for exceptional performance. - Travelex (2023 Q1).
Exceptional Performance Award – High impact in software development. - Travelex (2023 Q3)

EXTRACURRICULAR ACTIVITIES

Environmental Conservation | Running | Yoga | Swimming | Travel.
